FinOps Framework

FinOps is an operational framework and cultural practice which maximizes the business value of cloud, enables timely data-driven decision making, and creates financial accountability through collaboration between engineering, finance, and business teams.

FinOps Foundation

Principles

- Teams need to collaborate
- Decisions are driven by business value of cloud
- Everyone takes ownership for their cloud usage
- FinOps data should be accessible and timely
- A centralized team drives FinOps
- Take advantage of the variable cost model of the cloud

Domains & Capabilities

| Understand Cloud Usage & Cost | Quantify Business Value | Optimize Cloud Usage & Cost |
|-------------------------------|-------------------------|-----------------------------|
