3. Acceleration of EdTech Innovation due to Covid-19

1) The reason for platformization in the education field

- Rapid Development of relevant technologies: Video Solution, LMS, AI, Cloud Server, etc.
- Active implementation on Edtech after the outbreak of COVID-19, Lowered bars on regulation, Massive budget input, etc.
- Division of Education Services: Separation between Degree Courses and **Learning Process** (Learners can choose between online / offline, formal / informal education => Expansion of Deschooling)
- Criticism on the traditional one-way education and the inefficiency of its structure and contents

2) The decisive reason for the platformization of education

- **Components of a class (time, space, teacher, student, contents, interaction), which are the key factors in the education can be visualized inside a single platform**

3) 5 components of an Education Platform

```

graph LR
    A[Video solution] --- B[LMS]
    B --- C[AI]
    C --- D[E-Learning]
    D --- E[Digital Contents]
